**Toolbox Talk: WHY DO WE HAVE SAFETY MEETINGS?**

Safety meetings are an opportunity for management and your safety department to communicate to employees how they can do their jobs safer and better. Topics discussed in safety meetings may be topics that you are familiar with, or topics that you have limited knowledge about.

If the topic is something that you are familiar with, it may be easy to tune-out and not listen to the safety information presented. Do yourself a big favor and listen to the information as if you have never heard before. You may just learn something new, about the newest protective equipment, or a smarter way to do your job. Information passed on in a safety meeting has a purpose - to stop you or your co-worker from being injured.

Safety meetings are a perfect opportunity for you to communicate any safety ideas or concerns that you may have. Participate in your safety meetings. If you don't participate, then your ideas will not be heard. Who knows...the idea that you have may very well save your co-worker's life or even your own.

Please be sure to sign your name to the training certification form.
